Monitoring & Targeting Solution

Monitoring & Targeting

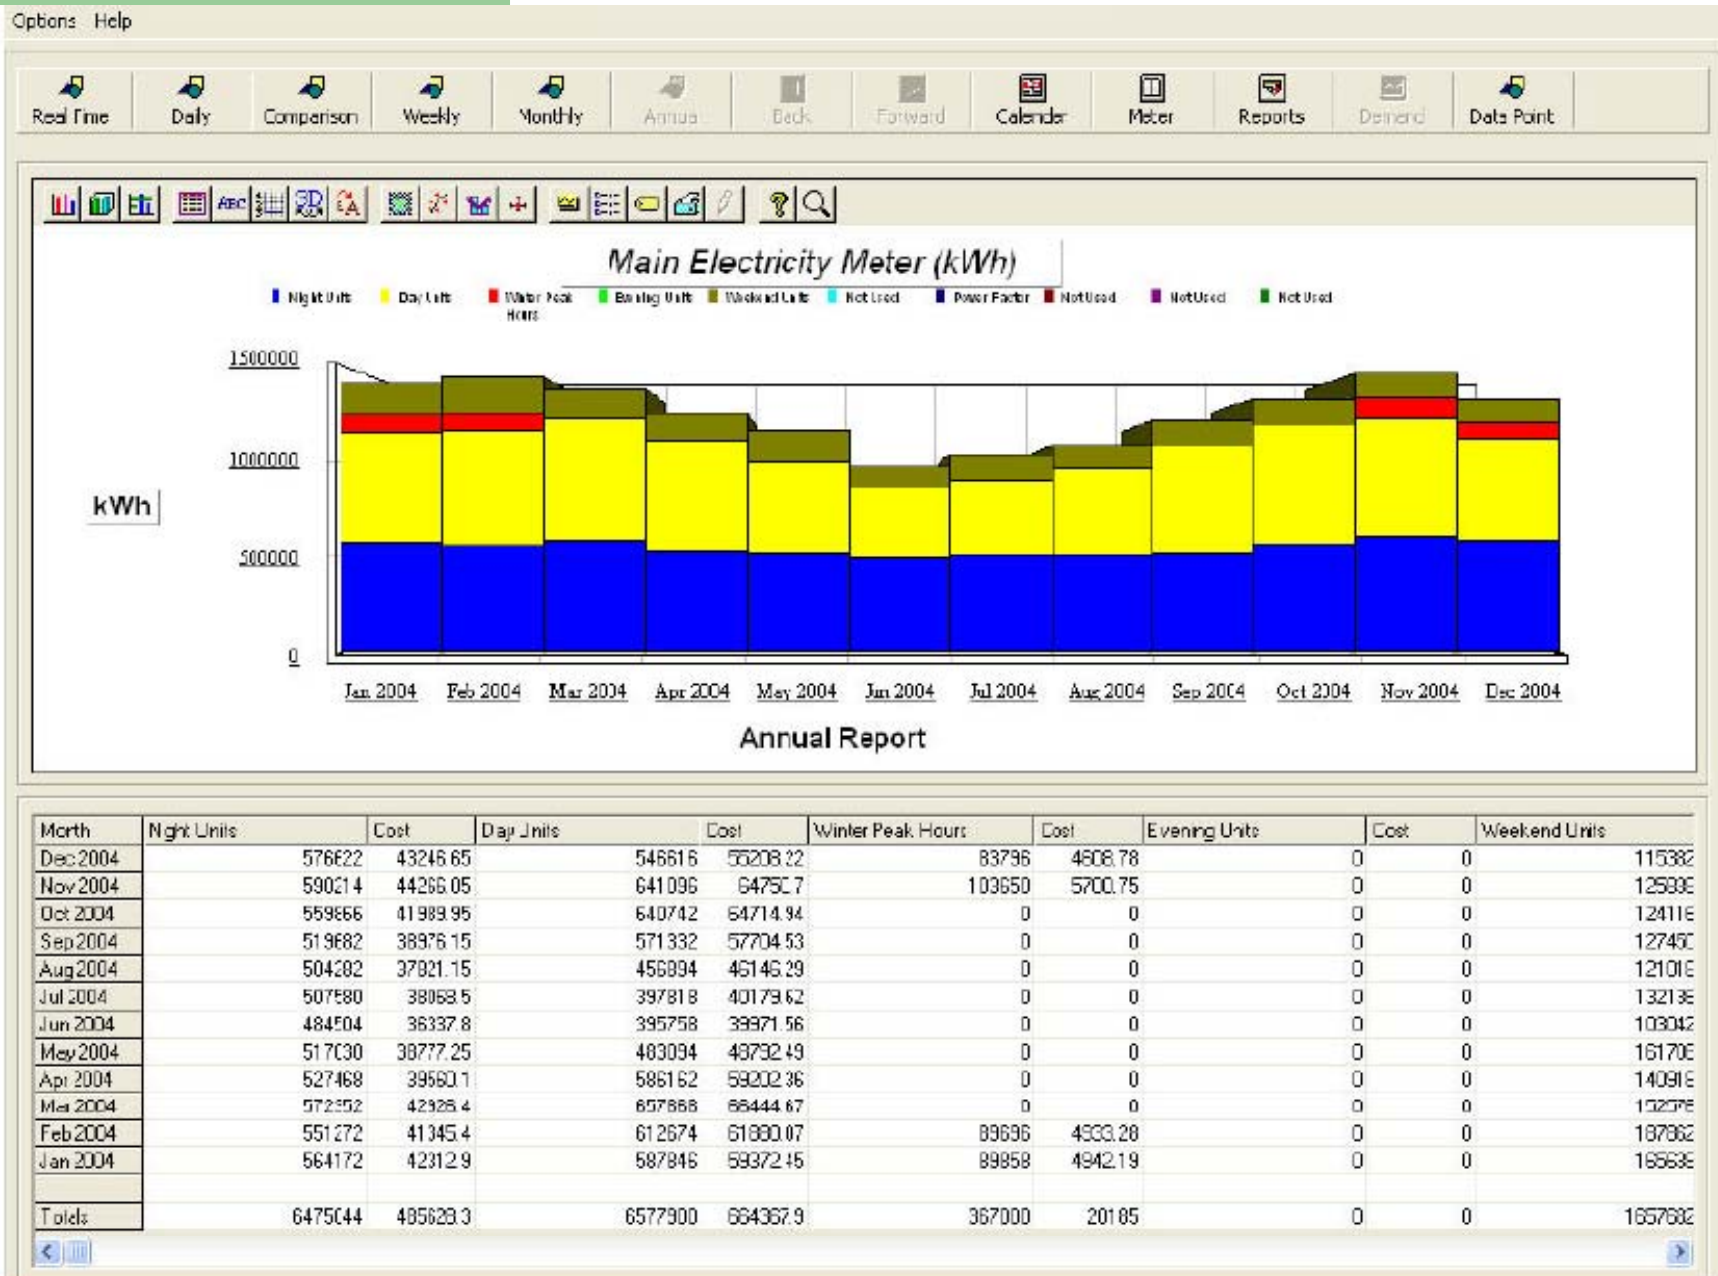

- M & T software packages to provide an opportunity of measuring and controlling energy consumption.
- The system will enable the user to monitor energy consumption and costs on an infinite number of utility meters.

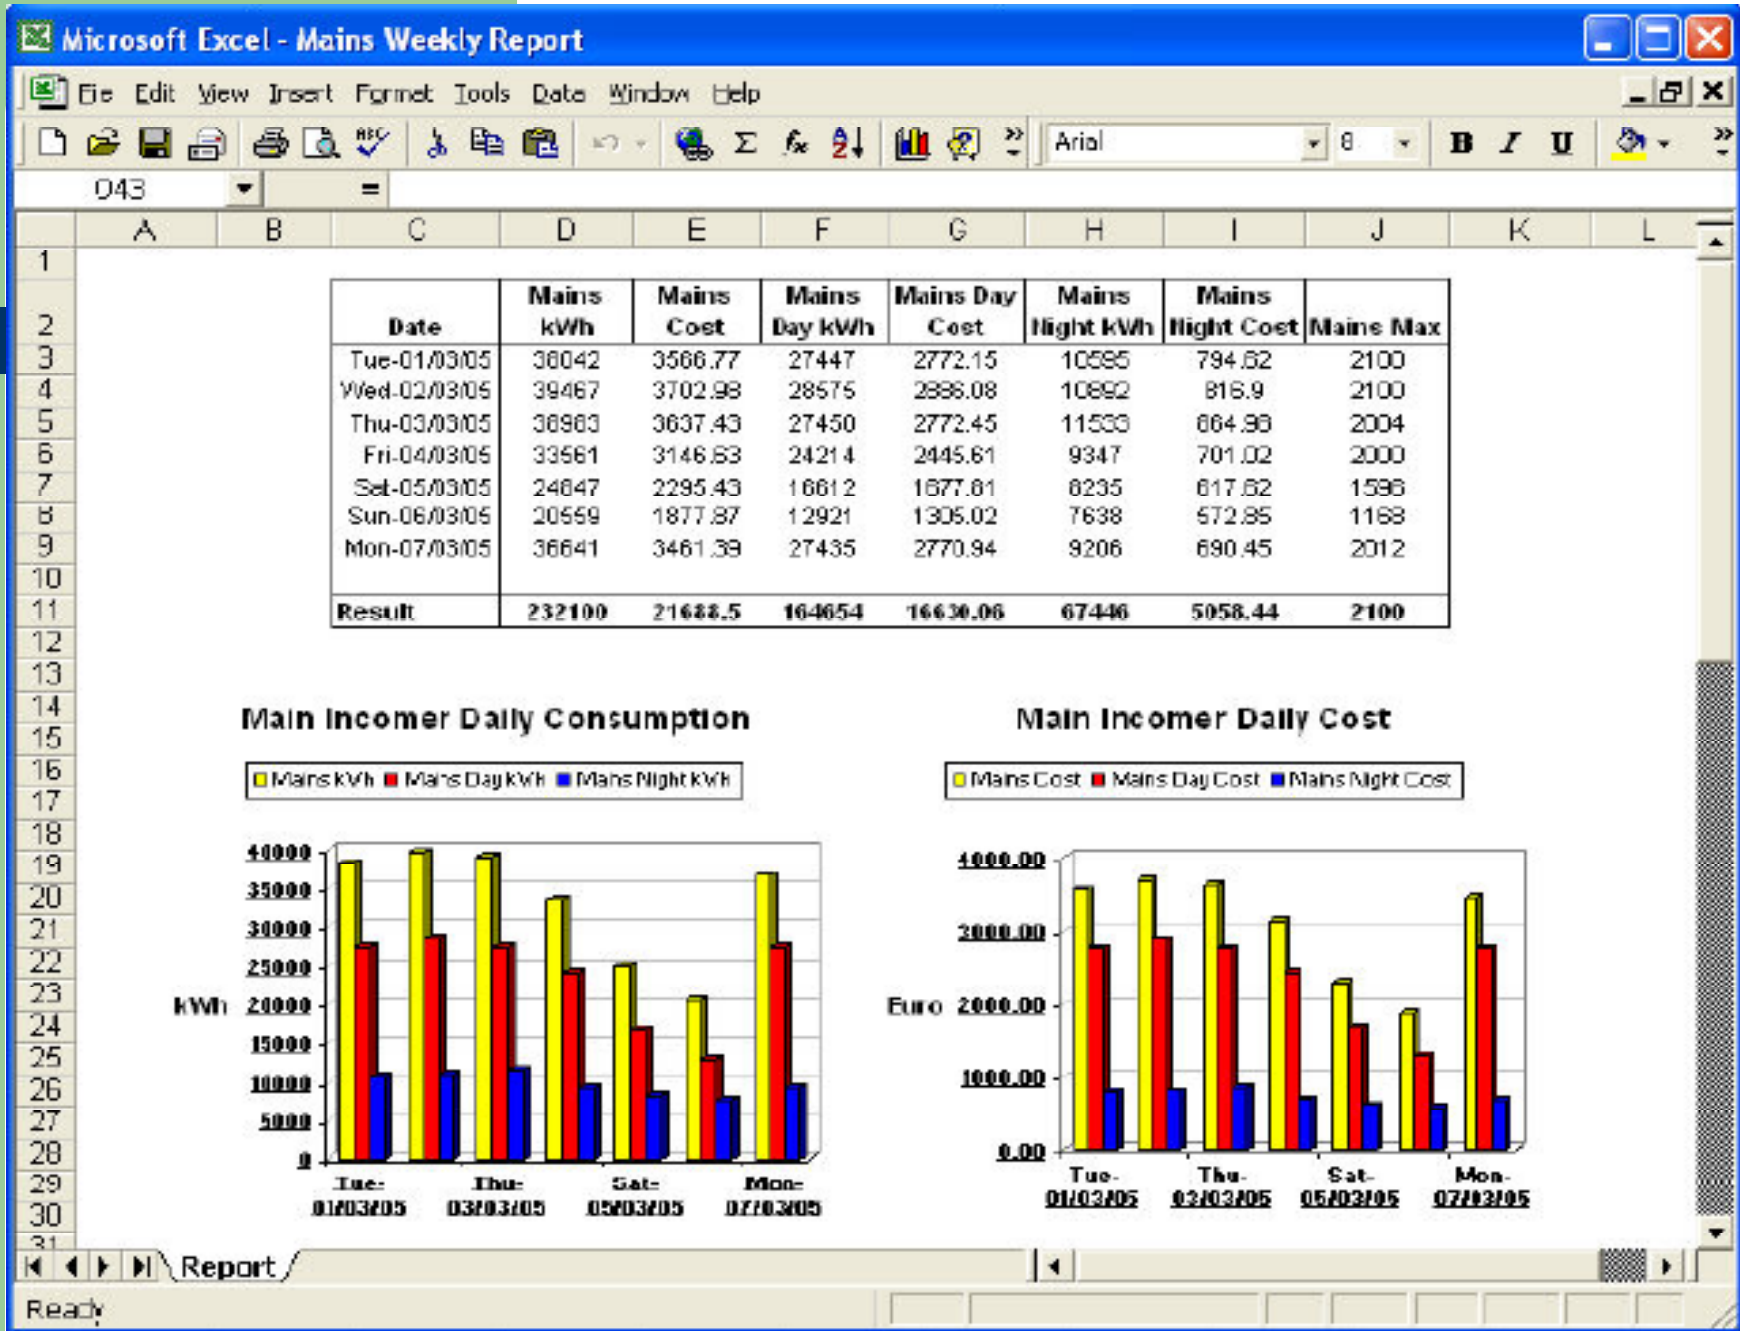

Monitoring & Targeting

- Daily, weekly, monthly and yearly information is available for analysis & costing purposes
- Data can be exported to Excel
- Monitoring all utilities; electricity, gas, water, process and calculated inputs E.g. Usage per unit produced
- Determination of consumption patterns prompting appropriate behavioral changes
- View correlations between equipment and energy use
- Energy/Cost Efficiency Comparisons between similar facilities – Adjustment for local conditions possible E.g. Degree days, Floor Area, etc.
