

Welcome to our latest newsletter !

In our latest newsletter we feature a case study from Wyeth where Manutec designed and installed a control system for new airlocks in the company's production areas.

We also feature in detail, controllers from two partner companies of Manutec: The UC32.netK from Cylon and the IQ3xcite from Trend.

As always, we welcome your suggestions for future newsletter topics.

Kind Regards,

Mary Mackessy
